DISCOVER OUR NEW STOCKBREEDING AND ANIMAL HEALTH EXHIBITION!

ANImashEXPO 

ANImashEXPO is a niche exhibition that has been requested by the professional public itself. This year, **from 5th to 7th of December 2024**, for the first time, we will be holding our specialised exhibition at the HUNGEXPO Budapest Congress and Exhibition Centre, with the aim of presenting **the entire stockbreeding sector in one exhibition area**.

The exhibition focuses on the core issues affecting the profession:

- How can the competitiveness of the sector be increased?
- Which renewable energy sources can be integrated into the sector?
- Presenting the latest trends and innovations
- Edification and generational change

Through the event, we aim to promote professional collaboration, the exchange of ideas and the flow of knowledge, giving farmers and professionals the opportunity to learn first-hand about the latest market trends and innovations.

The origins of the event can be traced back to the success story of AGROMashEXPO, which attracted 45,000 professional visitors. The prestigious and consistently sold-out trade fair attracts professionals from all over the country. To continue this tradition, the event aims to create business opportunities in the livestock and animal health sectors. It brings together the best professionals, businesses and organisations to contribute to the development of the sector.

THEMES

- Animal health
