SIMULTANEOUS EXHIBITIONS:

HUNGAROTHERM

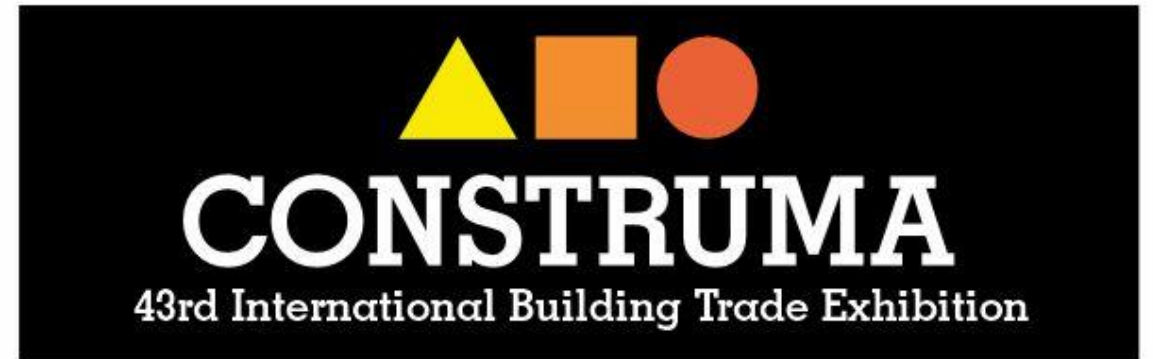

International Trade Exhibition for Heating Ventilation, Air-Condition Technology and Sanitation

Held biennially as a part of the CONSTRUMA exhibition bouquet, HUNGAROTHERM is Hungary's **largest summit of building engineering**.

The exhibition's most prominent themes are **heating and ventilation technologies** as well as **renewable energies/RENEO** (e.g.: solar technology) and the novelties introduced in other areas of building engineering.

In addition to the exhibitors' products and services, HUNGAROTHERM also attracts **mechanical engineers, fitters and future professionals** with **programmes, competitions and meetings** to increase the event's professional appeal.

Facing new challenges, the construction industry is experiencing significant changes in terms of building engineering and renewable energy, so it's **worth utilizing this opportunity to present the latest trends and products to the widest possible audience**.

HOMEDesign

HOME MAKING EXHIBITION

A key part of the CONSTRUMA assortment, this exhibition features everything from kitchen technology and bathrooms to living rooms and anything else you may need for creating a home interior.

The exhibition will also be showcased in a thematized arrangement with such areas as **KITCHEN**, sanitation, cold coverings, **BATHROOM & WELLNESS** as well as **INTERIOR DESIGN**.

HOMEDesign lays great emphasis on showcasing interior design trends and Hungary's design culture. **The Association of Hungarian Interior Designers** helps us to **present the latest interior design solutions**, colours and styles to visitors in a highly impressive, home interior-like environment every year.

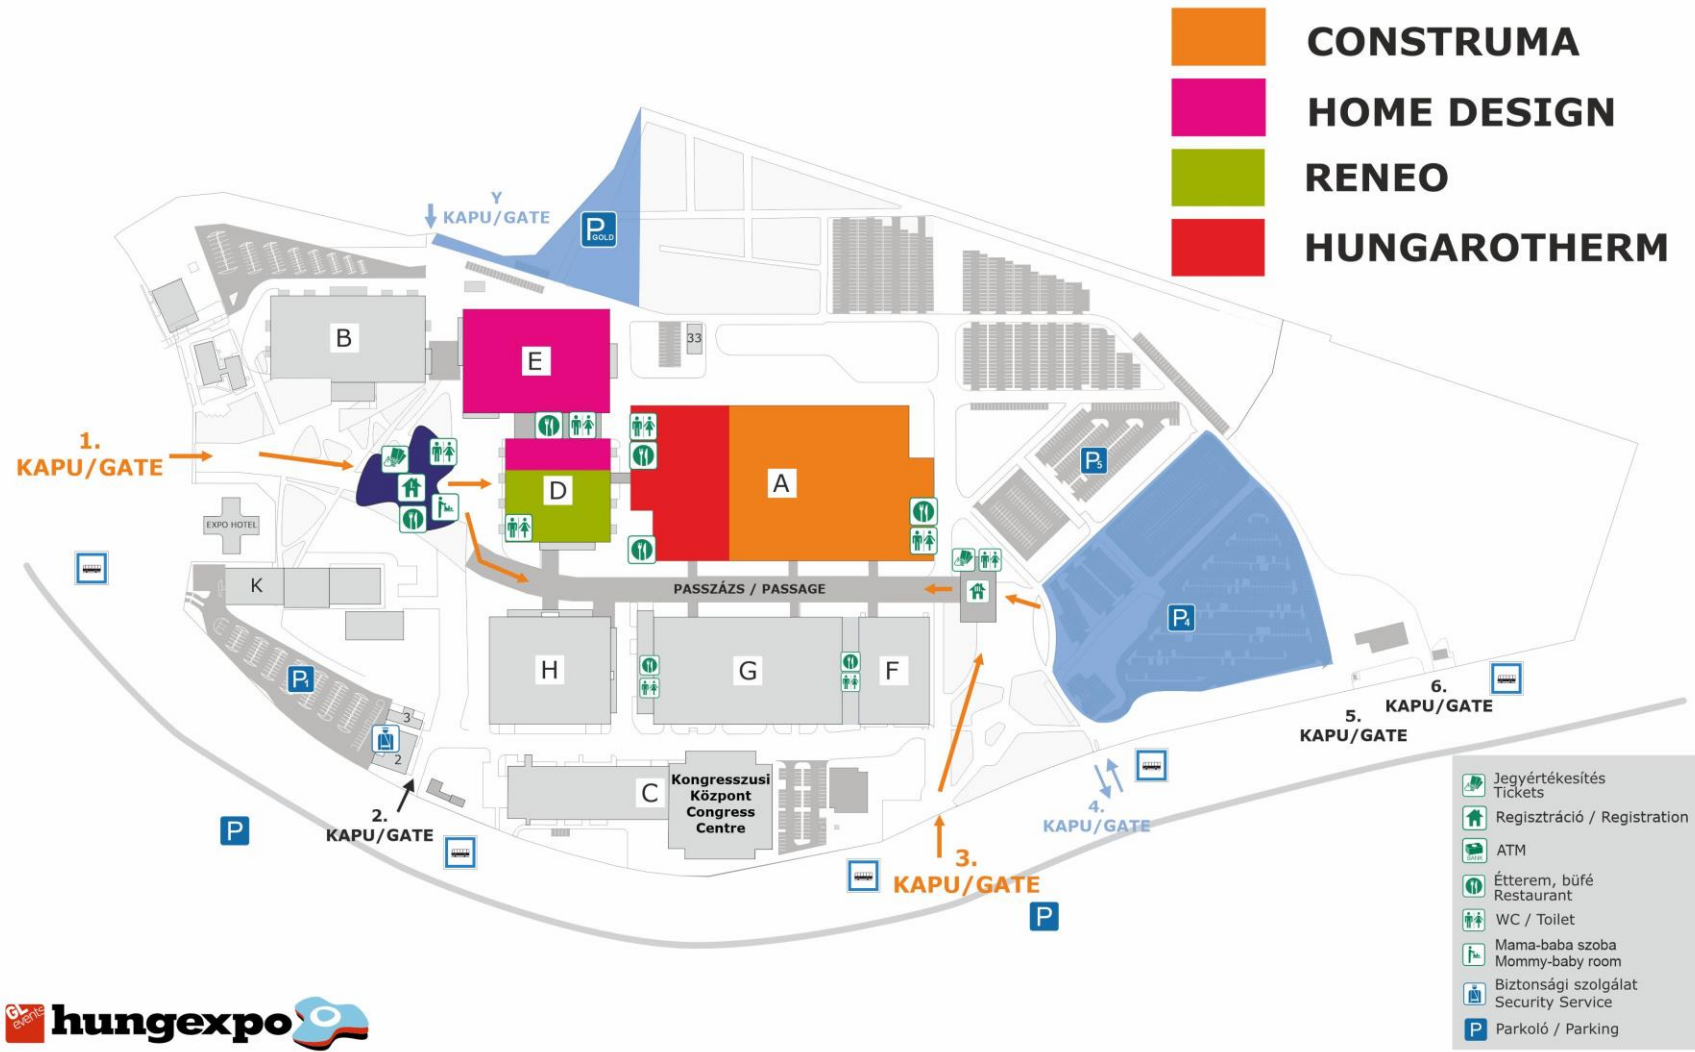

The exhibits of the **HUNGARIAN DESIGN** stand comprise the design products of an entire year, with **several creations making their debut here**.
