

GRAND AWARD ANNOUNCEMENT

Dear Partner,

if you want your service to receive special attention and have a chance to be the best, you have the opportunity to enter the AUTOMOTIVE HUNGARY GRAND PRIZE innovation product competition.

In 2022, HUNGEXPO Ltd. will organise the product competition with the participation of the exhibitors of AUTOMOTIVE HUNGARY. The aim of the tender is to **reward the best of the innovative products, processes and technical services distributed in Hungary.**

The applications received will be evaluated by renowned experts. The winners of each category will be announced at the grand opening of INDUSTRY DAYS, MACH-TECH and AUTOMOTIVE HUNGARY. The award-winning innovations will be presented in the co-exhibitions, so visitors will have the opportunity to view them during the event.

The product competition is organized by HUNGEXPO Ltd.

What are the benefits of winning the GRAND AWARD?

- It directs attention onto your product
- Increases confidence in your product among the target group
- Helps customers make purchase choices
- Strengthens marketing activities
- Gives your product prestige, acknowledgement of the profession
- Grand award-winning products receive much greater attention during the trade fair – the awards are presented to the winners at the opening ceremony, winners are listed on the website of the fair, and the winning products are displayed in a separate stand.

What are the evaluation criteria?

- High standards in terms of technical, economic value and usability
- The innovative nature of the product and the sphere of activity of technical development and innovation
- The economic and economical benefits of launching the product/service on the market

Your company may enter the competition with more than one product; however, each product must be submitted on a separate application sheet.

You can find more information about the application for the Grand Award on the „**Grand Award Competition Guidelines**” (on the next page).

Deadline for submission of application: 31st March 2022

PARTICIPATE IN THE COMPETITION!

Grand Award Competition Guidelines For Apply and Judging (AUTOMOTIVE HUNGARY)

1. Only AUTOMOTIVE HUNGARY 2022 exhibitors are eligible to enter the competition.
2. Any product, process, or technical or intellectual service falling under a product category at AUTOMOTIVE HUNGARY presented there (hereafter referred to as a product) is eligible to compete if its market impact can be measured.
3. A product /service that has not been sold on the market (a prototype) is not eligible for entry nor is a product that has been awarded a prize at AUTOMOTIVE HUNGARY within three years.
4. An Entry Form must be completed for every product /service in three copies each, with annexes in two copies each. The entire package including the attached annexes must be sent to HUNGEXPO Ltd. Entry materials should be forwarded electronically, also.
5. Please provide clear and specific responses to the questions. Please provide clear criteria for each product entered so as to prevent any possibility of error in identification. If the competing exhibitor is a distributor of the registered product, and not its manufacturer, this must be indicated on the Entry Form.
6. Only one product/service or product line with similar specifications may be placed in one entry.
7. A previous prize-winning product can be entered every three years if it can be proved that the product/service has been improved.
8. If a product has won a prize, this fact and the year in which it was won can be used in further publications and other communication about it, as long as the product has remained the same as the previous prize-winner.
9. The entry will be judged by a jury consisting of recognised experts.
10. Only those applicant products may be awarded with the Grand Prix of the Exhibition that are considered state-of-the-art in Hungary and internationally, has the technical specifications and cost-effectiveness of similar products and possesses features that are at least equal or more favourable to them.
11. A competing exhibitor must provide appropriate documentation of the technical specifications and parameters of the product, and must certify the provided data by attaching the annexes below (in copies of the original):
 - a detailed description of the product;
 - official documents required to begin distribution on the market;
 - test reports; „first sample“ test records
 - press copy (of no more than 1250 characters in length) drafted for use by the media;
 - technical descriptions, documentation and photographs, CAD/CAM models and presentations based on which the product presented can clearly be judged;
 - certifications and, where required, official permits;
 - audited ISO certification for the manufacturer or distributor;
 - a declaration of product liability pertaining to the product entered;
 - other documentation, e.g. expert opinions or, where required for a product, a distribution permit;
 - an indication of the number of items manufactured and sold up to the submission of the entry and in the year prior thereto as well as supporting documentation (using only natural units e.g. no. of items, kg, l etc. and net sales returns e.g. Ft, €, \$ etc.)

GUIDELINES OF JUDGING:

In awarding the Grand Prize of the Exhibition, the jury will compare the entries by analysing and evaluating the documents above on the basis of the following guidelines:

1. Completeness of the submitted documents
2. A high standard achieved in terms of technical specifications, economic considerations and value to end user.
3. The amount and quality of intellectual and technical work and innovation embodied in the entry.
4. Innovative content in which preferred fields.
5. Evidence that in manufacturing the product the applicant consistently complies with technical specifications and economic criteria. And delivers even quality (We recommend attaching supporting documents.)
6. Market success that the product / service has achieved (Quantity produced and sold, turnover)
7. Other financial advantages enjoyed by end-users since distribution began in respect of market competitiveness:
 - the product has innovation content;
 - the product broadens the range
 - the product contributes to an increase in the volume of exports
 - per unit materials and energy costs can be decreased
 - the product promotes a modern, healthy lifestyle and labour conditions
 - it meets environmental protection guidelines.
 - life-cycle quality management (TQC) is achieved in the product concept.
