Construction doesn’t begin with the engineers, masons or carpenters, but by understanding: you crave for renewal. We, at HUNGEXPO, have known for years that the changed and increased exhibitor, event organizer and visitor demands require expansion, reconfiguration and reconstruction.

We have long prepared for this, making plans, analysing proposals, needs and possible solutions and now the time has come to turn the plans into reality and the drawings into real buildings. In many regards, the exhibition year that now begins is all about construction. Yet while the machines are busy working, life doesn’t come to a standstill as the business must go on. The congress and exhibition center is still fully operational during the reconstruction works and the exhibitions are running smoothly, although some extraordinary measures can be expected.

Just as the Hungexpo site, the exhibition and event portfolio are continuously changing and developing. Apart from our usual, market-leading events, our three exhibitions developed last year also lived up to their expectations, therefore, visitors can again experience the HUNGAROMED Healthcare and Medical Technology Exhibition and Conference, the HOMEDesign Autumn Homemaking Exhibition and Fair, as well as the Beauty & Style International Beauty Industry Exhibition.

Most of us know what it’s like to refurbish an apartment: although we have to dodge heaps of gravel with annoyance, our gaze excitedly returns again and again to the bare walls: the cupboard goes here, the bookshelf goes there. That’s how we feel as well: we kindly ask our exhibitors and visitors to bear with us through the hindrances, yet we’re also proud of what we’re building - since we know that it serves our future comfort, providing a modern, high quality business environment.

Managing Director, Hungexpo Zrt.
Sirha Budapest is a member of the French Sirha International Network and the most significant HoReCa and retail show of the Central Eastern European region that covers the entire spectrum of gastronomy as well as the food, baking and confectionery, hotel, catering and packaging industries. Apart from getting acquainted with the latest trends and innovations of the industries, the biennial event also provides professionals with a chance to establish new relationships, develop their businesses and meet the cream of the profession. Accordingly, the exhibition features numerous conferences, presentations and world class competitions, such as Bocuse d’Or Hungarian Selection, Chaîne des Rôtisseurs, Sirha Budapest Dessert Competition or National Mass Catering Chef Competition. Amongst other means, the PRIMOM Foundation and the Enterprise Europe Network B2B meeting provides the perfect forum for business meetings, with 93 such discussions taking place last year, including 49 international negotiations. Metro is the event’s special trade partner, whilst Trade Magazine is its special media partner.

A GROmashEXPO and AgrárégépShow collectively represent the most prestigious and greatest agricultural professional exhibition in Hungary. Its regional importance continues to increase and already has an 8.6% share of foreign visitors. Practically the entire domestic machine market is present: market-leading companies, the greatest, most widely distributed international brands as well as the cream of domestic machine manufacturing sector. Apart from agricultural machines, there is also a growing presence of input (seeds and other propagating materials, pesticides, fertilizers, and pest relief substances) and logistics, agro-electronics, measurement technology and automation. The event also enjoys special governmental and professional support and benefits from a rich conference schedule.

Hungary’s largest landlocked port and the grand season-opening event of sailing and water sports opens its doors to the public for the 29th time in 2020. Thanks to the concordant opinion of the participating companies and visitors, the exhibition has found its new place alongside the Travel Exhibition, jointly attracting 35,000 visitors to the HUNGEXPO Budapest Congress and Exhibition Center. Over recent years, thanks to the continuous growth of Budapest Boat Show, it has become a meeting place of the boating community, where the lovers of the sport can gather and survey the full domestic supply of boats as well as the top innovations of the year, thanks to the Novelty Competition. At the same time, however, water sports continue to play a key role at the event, along with the related equipment and services. In 2020, visitors can also choose from wide range of events, as the stage, the Show Pool and Program Island will again be filled with attractions. On the second day of the event, as customary, exhibitors can make deals at the Exclusive Exhibition Visit and host their most important partners.

Hungary’s number one tourism fair hosted for 42nd occasion in 2019, the Travel Exhibition, featured numerous novelties and developments, which will continue to shape the event in the future. The exhibition is focused on the experiences to be had, as well as establishing personal relationships and providing visitors with the most extensive body of information as possible. Our effort has achieved its goal as the number of satisfied exhibitors has doubled since last year and Travel exhibition together with Budapest Boat Show attracted 35,000 visitors. The Travel Exhibition provides exhibitors with a platform in 2020 again where they can bring the experience of travelling within arm’s reach for the visitors with professional staff members, credible sources of information and digital devices while establishing personal ties with potential travellers. Quality professional events, Tourism Career Expo, Student Professional Day and competition, exciting lectures presenting destinations and discussions with travel bloggers, sweepstakes with valuable prizes and a diverse range of stage events are organized to entertain visitors. Continuously held events: Budapest Boat Show, Caravan Salon, HTCC Africa Expo and Fair, Unwalked Paths Festival.

NOVELTY:
Based on the success of the Student Professional Day event, we’re creating a tourism job fair called Tourism Career Expo in 2020, which allows us to help young adults launching their careers to find a job as well as boost the careers of experienced professionals seeking employment. The Travel Exhibition 2020 will be focused on the theme of cultural and religious tourism. The event will be joined by Italy as the foreign guest of honour and Eger and vicinity as the domestic guest of honour.

The HOMEDesign Autumn Home making Exhibition and Fair is focused on the interior of homes, as the autumn event presents a wide range of quality and design products, activities, counselling and demonstrations. The exhibition basically offers a forum for discovering autumn innovations for the general audience interested in interior design as well as those who wish to reconfigure their homes. Additionally, the exhibition provides events for professional visitors (interior designers and decorators): conferences, workshops and demonstrations. The exhibition’s special partner is the Association of Hungarian Furniture and Woodworking Industry which, beyond professional meetings, contributes to the range of features on offer with a number of special demonstrations. The exhibition also provides an opportunity for a wider range of presentations: young designers and fabric designers are also featured amongst the exhibitors at the event.

At Hungary’s greatest beauty industry event in 2018, the manufacturers and distributors of the industry presented their cosmetics, hairdressing, nail care innovations and top products across 5,000 sqm. With the assistance of the BEAUTY & Style International Beauty Industry Exhibition’s main professional partner, the Handicraft Department of the Budapest Chamber of Commerce and Industry (BKIK), we staged an international-class event at Hungexpo’s newest pavilion. Last year, over 85% of the guests were professional visitors, showing even distribution amongst the various fields of expertise. 74% of the exhibiting companies and professional visitors would recommend for their business partners to participate as an exhibitor. The exhibition serves as the definitive platform of the beauty industry and its annual meeting place, featuring a range of unmissable events: demanding competitions, workshops and spectacular demonstrations await professionals and those who are interested in the innovations of the field.

**THEMES:**

“The nearly 2,000 visitors registered at our company’s stand is proof that the MACH-TECH professional trade exhibition is the true exhibition for our company’s market sector. We receive a great amount of support from the Hungexpo organizing team in order to host a successful event. Every year, we try showcasing our latest products, presenting them to visitors with quality demonstrations worthy of the trade. Last time, we staged a live grinding demonstration to present our latest grinding tools, including the related technology and our cutting-edge clamping devices. We already look forward to the next professional exhibition providing a comprehensive overview of the market sector in 2 years’ time.”

Zsolt Fülöp Sales Manager, Hungary -
Hoffmann Group / MACH-TECH exhibitor

“ÉMSZ has developed a close, decade-long cooperation with the CONSTRUMA team: it has been the professional exhibition’s patron for over 20 years and it’s co-main patron for 3 years. As a professional organisation, it is practically compulsory to provide professional support to the trade exhibition that is the market leader both domestically and even in the Central Eastern European region. We’re proud to be involved in CONSTRUMA year after year, through the accompanying events developed in cooperation with the HUNGEXPO team, our innovative ideas and THE ROOF OF THE YEAR award. The goal of our educational, show-like demonstrations is to make the exhibition a true experience, for professionals and end users alike. We are also preparing a special innovation for the year 2020: we will be setting up a spectacular roof show island in Hall “A”. I feel that the wide-ranging CONSTRUMA accompanying events and the new products demonstrated over the course of the 5 days can inform designers, contractors and the general audience, thus greatly contributing to raising the standards of the trade.”

Mátyás Sándor president -
ÉMSZ Hungarian Association of Insulation, Roofing and Tinners / CONSTRUMA professional partner

“We attended the exhibition with a range of devices used in the automotive industry, thanks to which we had a great deal of visitors at our stand. We met and exchanged contact information with many engineers working in the automotive industry, thus boosting our company’s social capital in Hungary.”

Carl Zeiss Technika Kft. / AUTOMTIVE Hungary exhibitor

“This year, we found even more clients interested in our microscopic imaging and measurement solutions. We were also satisfied with the number of visitors at the event. I highly appreciate the increased activity of the organizers in relation to the exhibition’s general appearance as well as the assistance they provide during and after the event.”

KEYENCE International / AUTOMOTIVE Hungary exhibition
